SpiderTech™ Therapy In-Service Presentation

Progressive Education for the Progressive Therapist

Approximate time: 1 hour in-service

Attendees will be introduced to the complete line of Pre-Designed and Ready-to-Apply SpiderTech™ Kinesiology Taping Applications and how they can dramatically improve your clinical outcomes and patient management strategies. This one hour presentation will provide the progressive therapist with a brief introduction to the latest evidence in pain neurology as well as a simple breakdown of how to use kinesiology tape to maximize your effectiveness in practice.

What You Will Learn:

- An up to date understanding of the neuroscience and physiology of pain and the effect on musculoskeletal function
- How SpiderTech™ Kinesiology Tape Applications works and their effects on the central nervous system via sensory gating and neuromuscular plasticity
- SpiderTech™ application guidelines and principles
- Clinical Relevance in everyday practice
- “Ask the Expert”

This introductory workshop is packed full of information including the most up-to-date research and opportunities to learn from the experts, as our instructors are all leaders in their fields. You can find more information at www.spidertechtape.com.au or call Darron Goralsky – Physiotherapist on 041456630 or Joe Kuriel – Sports Chiropractor on 0410544749. Book your in-service and begin to learn how SpiderTech™ Therapy provides less pain and more activity for more people.
